

Fee Schedule

Our fees are as follows:

New Patient Examination \$208

Office visit (0-15 minutes) \$52

Additional 15 minutes \$52

Our basic office visit charge is \$52 for a treatment. This is usually accomplished in fifteen minutes or less. On some occasions the doctor may feel it necessary to spend more than fifteen minutes with a patient. In this instance the charge will be \$52 for each additional fifteen minutes. This applies to the regular office visits, not to the initial examination or to the report of findings.

Insurance

In order to keep your costs low, we do not file insurance directly. We will gladly give you any assistance with paperwork that you may need in order for you to be reimbursed.

Cancellation Policy

If it becomes necessary to cancel an appointment, we require at least 24 hour's advance notice for a scheduled 30 or 45 minute appointment and 48 hour's notice for appointments an hour or longer. If we do not receive notice, you will be charged for that appointment. This policy is necessary so that we may schedule other patients waiting to come in to the office.

Payment is due when services are rendered. If this is not possible, please inform us immediately. Patients should discuss any questions or problems before signing this statement of policy.
